If you contacted me about the survey, please register early! I want to make sure you get into this round of trainings!

This training fills very quickly!

Chances are if you wait until the week prior to the scheduled dates, you will not be able to register~

This training certifies you to work for regional utilities that require the PTCS certification from Bonneville Power Administration.

*Some BPA utilities require PTCS certification and some will accept prescriptive sealing certifications.*

*Please check with your utility to be sure.*

*It is a utility by utility choice.*

*Prescriptive certification requires viewing a duct sealing videos (at Weatherization Training Northwest) and passing a test.*

Class starts at 8:00am and ends about 4:30 – 5:00pm

Class training booklets are provided

You will be on your own for lunch.

There is plenty of free parking.

Please be mindful of cell phone use during class time.

Training material is provided

Below is a list of motels if you need it.

The Quality Inn listed below is the closest. It is right across the street from our office building

It is where I stay when I go to Olympia.
